

OMBAC^{PLUS}

AIR SANITIZER

EFFECTIVE • NATURAL • SAFE
AS SAFE AS H₂O

KILLS 99.99%
BACTERIA & VIRUSES

Hypochlorous (HOCl) kill Bacteria / Fungus / Virus / Germs

THE BENEFITS OMBAC+ Air Sanitizer

- Antimicrobial & Antivirus
- Eliminates Airborne Pollutants
- Cleans Effectively
- Non Alcohol & Safe to Breathe In
- Prevent cross contamination

Kill Bacteria
Immediately

Safe For
Baby

Promptly
Clean

Reduces
Odour

IS THE AIR SAFE TO BREATHE IN?

What is airborne disease ?

Human health is influenced by microbes that presents in the air of public environment which may lead to airborne diseases.

Airborne disease is transmitted through the air. Spraying of droplets while coughing and sneezing that contain pathogens may spread in the air and cause cross contamination.

Sanitize the air in public environment such as hospitals, schools and shopping malls. Also applicable for objects such as furniture, toilets, utensils and even skin surfaces.

Widely use in disinfectant tunnel, humidifier and other equipment to sanitize microbes effectively.

Dilute 50 times with clean water

Example: 1 ml of concentrate to be diluted with maximum 49 ml of clean water for usage according to condition of the situation.

IG TECH® Antimicrobial Technology

Integrated Technology & Formulation of Germany, Japan & Malaysia

FOR EXTERNAL USE ONLY

TEST REPORT & ANALYSIS

UNIVERSITI SAINS MALAYSIA & EUROFINS

Effective Against Microorganisms (Kill Within 30 Seconds)

- Staphylococcus Aureus
- Bacillus Subtilis
- Escherichia Coli
- Proteobacterial Sp.
- Enterobacter Sp.
- Salmonella Sp.
- Pseudomonas Aeruginosa
- Salmonella Typhi
- Klebsiella Sp.

SIRIM

ACHIEVE EN-1276 & 1650 Effective Against Bactericidal, Fungicidal & Yeasticidal

Dermatologically Safe Gentle on Skin

Viroxy

ACHIEVE EN-14476 Effective Inactive Human Corona Virus

CERTIFICATE OF ANALYSIS (COA)

EUROFINS

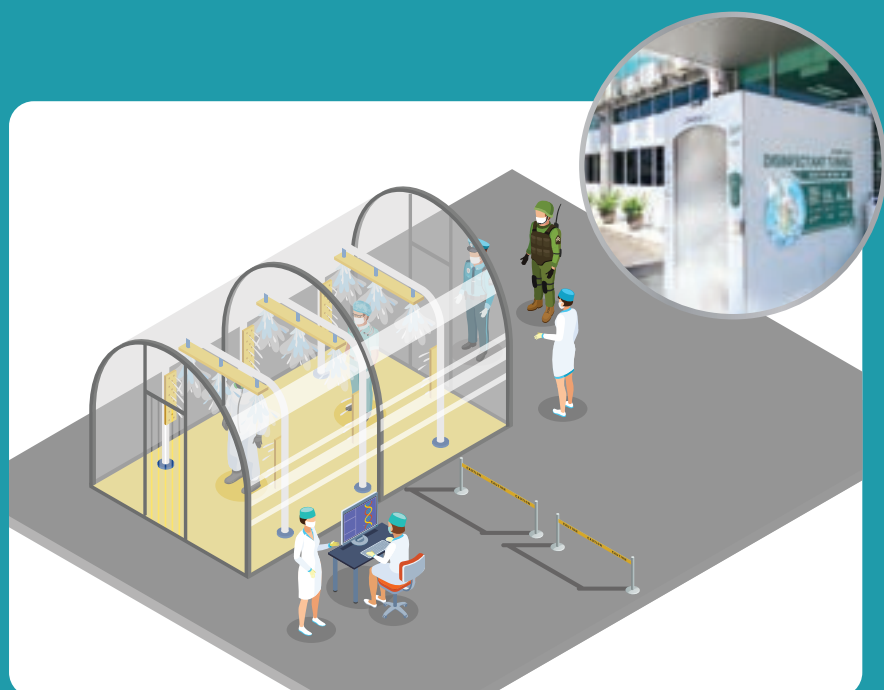

Result: No Heavy Metals

- Plumbum (Pb)
- Cadmium (Cd)
- Arsenic (As)
- Mercury (Hg)

CAUTIONS : Best effect in 6 hours, recommended use within 48 hours after dilution.
Only use after diluted according to instructions.

WAYS TO USE OMBACPLUS Air Sanitizer

DISINFECTANT TUNNEL

A walk-through structure and consists of three sets (a few nozzles each) of high-pressure micro-nozzle sprinklers fitted on the top and sides of the tunnel's steel frame. The sprinklers spray Hypochlorous Acid solution, which is enough to destroy the virus on the surface.

HUMIDIFYING AIR PURIFIER

Designed to clear the air of allergens, dust, reduce mold or control odors. Which is also work to control the humidity level in a room
