

# What Is? BABY INSTANT HYGIENE

A ready-to-use HOCl hygiene spray created for babies' delicate needs. Safe, gentle and suitable for daily use on skin, toys and baby items.

## Why HOCl Is the Best Choice for Babies

HOCl is a natural molecule produced by the human immune system.

It is strong on germs, but gentle like water, making it ideal for baby hygiene.

### The Problem Parents Face

Babies are sensitive and easily exposed to germs through:

High-touch surfaces like toys & strollers

Changing areas and baby rooms

Visitors touching the baby

Pet contact or outdoor exposure

# BABY INSTANT HYGIENE

Alcohol-Free

Fragrance-Free

pH-Friendly

Chemical-Free
